

Title: RagTime: a Business Insight Extractor

Team: Phil Mui <thephilmui@gmail.com>

Problem:

Business professionals often need to quickly find accurate and up-to-date information on a variety of business topics. However, it can be time-consuming and difficult to find the information they need from the vast amount of content available online. Often, one would come across a webpage with interesting content that may be too long or too complex to understand. Wouldn't it be great for an "agent" to read & comprehend that page for the user & allow the user to ask questions about it to help her understand that content?

Solution:

RagTime is a Business Insight Extractor LLM app that allows users to enter any URL about a business topic and the system will try its best to answer the user's questions based on the webpage content. The system will deploy a Corrective Retrieval Augmented Generation technique to ensure the answer is as accurate and as current as possible.

Key Features:

- **User-friendly interface:** Users simply need to enter a URL into a conversational interface. RagTime will automatically extract the relevant information.
- **Comprehensive coverage:** The system can answer questions on a wide range of business topics, including marketing, finance, operations, and strategy. Domain of conversation can span outside business topics as we iterate the product & understand market reception to this idea.
- **Accurate and up-to-date information:** The system uses a Corrective Retrieval Augmented Generation technique to ensure that the answers are as accurate and as current as possible.
- **Time-saving:** The system can quickly extract the information that users need, saving them time and effort.

Benefits:

- **Increased productivity:** Business professionals can save time and effort by using the system to quickly find the information they need.
- **Improved decision-making:** The system can help business professionals make better decisions by providing them with accurate and up-to-date information.
- **Competitive advantage:** Businesses that use the system can gain a competitive advantage by having access to the latest information on business trends and developments.

Target Market:

RagTime is targeted at business professionals who need to quickly find accurate and up-to-date information on a variety of business topics. This includes professionals in marketing, finance, operations, and strategy.

RagTime will be offered as a subscription-based service. Users will be charged a monthly fee to access the system.

Conclusion:

RagTime is a valuable Business Insight Extractor tool for business professionals who need to quickly find accurate and up-to-date information on a variety of business topics. The system can save users time and effort, help them make better decisions, and give them a competitive advantage.
